EECS 211
Advanced System Software
Winter 2008

Assignment 6

Posted: March 6, 2008
Due: March 19, 2008

Topic: User programs and system calls in Nachos

Instructions:

The goal of this assignment is to complete the previous Assignment 5.

There are two options:

Option 1: Leave as submitted (20 extra points)

If you choose Option 1, the previously submitted files for Assignment 5 will be graded on a "as is" basis. You will receive 20 points extra credit for this option.

Option 2: Resubmit Assignment 5

If you choose Option 2, you may resubmit the files for Assignment 5 which will then be graded based on the new files. There is no extra credit for this option.

Submission instructions:

To submit, send an email with subject "EECS211 HW6" to the course instructor at doemer@uci.edu. Please indicate your choice of either Option 1 or Option 2 at the beginning of your email. For Option 1, there are no further deliverables. For Option 2, include the files asked for in Assignment 5 as attachments, and put your description in the body of your email.

To ensure proper credit, be sure to send your email before the deadline:
March 19, 2008, 11:59pm (before midnight).
