

# EECS 10: Computational Methods in Electrical and Computer Engineering

## Lecture 1

Rainer Dömer

doemer@uci.edu

The Henry Samueli School of Engineering  
Electrical Engineering and Computer Science  
University of California, Irvine

## Lecture 1: Overview

- Introduction
  - Course overview
- Course administration
  - Course web pages
- Getting started
  - Obtain your UCI netID
  - Obtain an account on the EECS servers
  - Log into the server
  - Work in the Unix system environment

## Introduction

- Course Contents
  - Introduction to computers
  - Introduction to structured programming
    - C, a high-level structured programming language
  - Binary data representation
  - Introduction to algorithm efficiency
  - Solving engineering problems
    - Applications of structured programming
  - Hands-on experience
    - Laboratory and discussion sessions

EECS10: Computational Methods in ECE, Lecture 1

(c) 2010 R. Doemer

3

## Course Administration

- Course web pages online at <http://eee.uci.edu/10f/18010/>
  - Instructor information
  - Course description and contents
  - Course policies and resources
  - Course schedule
  - Homework assignments
  - Course communication
    - Message board (announcements and technical discussion)
    - Email (administrative issues)

EECS10: Computational Methods in ECE, Lecture 1

(c) 2010 R. Doemer

4

## Getting Started

- Obtain your UCI netID
  - Your unique ID at UCI
  - Activation online at OIT (NACS) web pages:  
  
`http://activate.uci.edu/activate/menu.html`
- Obtain an account on the EECS servers
  - Your working account in EECS
  - Activation online at EECS web pages:  
  
`https://newport.eecs.uci.edu/account.py`

EECS10: Computational Methods in ECE, Lecture 1

(c) 2010 R. Doemer

5

## Getting Started

- Log into the server
  - Use a terminal with SSH protocol (secure shell)
  - Connect to an EECS server
    - `malibu.eecs.uci.edu`
    - `vivian.eecs.uci.edu`
    - `newport.eecs.uci.edu`
  - Authorize yourself with user name and password
- Work in the Unix system environment
  - Unix shell prints command prompt, awaiting input
  - Type in system commands  
`echo, date, ls, cat, man, more,`  
`pwd, mkdir, cd, cp, mv, rm, rmdir`
  - Refer to manual pages for help on commands
