

EECS 22L: Instant Messaging App User Manual Grading Criteria

Prepared by: Mina Moghadam, Mihnea Chirila, Hamid Nejatollahi, Bo Tsai,
Prof. Quoc-Viet Dang and Prof. Rainer Dömer

February 14, 2018

The first deliverable in the *Instant Messaging Application* project is the initial version of the user manual that specifies the expected software product. While this document can be refined in the following weeks so that it matches the actual implementation in detail, it should describe the user experience of the software product as anticipated. Specifically, the user manual should describe the installation and use of the software by the user and contain a detailed description of the functionality with all options.

For full credit (100%), the document submitted by your team should include the following sections:

Title page (10 points)

- Software title, version
- Author/producer, affiliation

Front matter (20 points)

- Table of contents
- Glossary (of Instant Messaging)

1 Instant Messaging (20 points)

- 1.1 Usage scenario
 - Sketch of a typical screenshot
- 1.2 Goals
- 1.3 Features

2 Installation (15 points)

- 2.1 System requirements
- 2.2 Setup and configuration
- 2.3 Uninstalling

3 Program Functions and Features (20 points)

- 3.1 Detailed description of client and server communication
 - User input, program output, screen shot, etc.
- 3.2 Detailed description of logging in algorithm, registering algorithm
 - User input, program output, screen shot, etc.
- 3.3 ...

Back matter (15 points)

- Copyright
- Error messages
- Index
